At the meeting of the Board of Directors of Migros, held on 26 March 2013, it was decided according to the proposal by our Audit Committee that DRT Bağımsız Denetim ve Serbest Muhasebeci Mali Müşavirlik A.Ş. (a member of Deloitte Touche Tohmatsu Limited) be elected as the independent audit company for the 2013 fiscal year. This decision will be submitted to the General Assembly for approval, according to the Board's resolution.

The Migros general assembly of shareholders voted to approve, as the Company's independent auditor for 2013, the firm of DRT Bağımsız Denetim ve Serbest Muhasebeci Mali Müşavirlik A.Ş. (a member of Deloitte Touche Tohmatsu Limited), which had been selected by the Board of Directors upon the recommendation of the Audit Committee.

A two-member Audit Committee has been formed by the Board of Directors of Migros. Under article 4.5.3 of the CMB's "Communique concerning corporate governance principles (II-17.1)", all of the members of the Audit Committee must be selected from among the Company's independent board members. At a meeting of the Board of Directors on 9 October 2012, a resolution was passed to reconstitute the Audit Committee as a two-person body whose members are both independent board members and Hakkı Hasan Yılmaz and Tayfun Bayazıt were elected to fill these seats. The Company's donation policy is disclosed to shareholders by means of a general assembly meeting information document that is made available before general assembly meetings at the Company's headquarters, on its corporate website at www.migroskurumsal.com, and at the Central Registry Agency's electronic general assembly portal. A separate item concerning charitable donations provided to foundations and associations is included in general assembly meeting agendas and shareholders are provided with information about them.

Prior to the meeting, no shareholders submitted any proposals for items to be included in the meeting's agenda. During the meeting, no shareholders asked any questions.

Shareholders at the Company annual general assembly meeting were informed about the donations and assistance provided by the Company during the year. In 2012 the Company made donations totaling TL 650,533.69 consisting of TL 185,000 to the Educational Volunteers Foundation of Turkey, TL 123,957.40 to the municipality of Marmaris, TL 121,040 to the municipality of Yenimahalle, and TL 220,556.29 to other associations and foundations.

No company shareholder with a controlling stake, nor any board member, nor any manager with administrative responsibilities nor any spouse or relative (whether by blood or marriage unto the second degree) of any of these has engaged in any transaction with the Company or with any of its subsidiaries or affiliates that might be deemed to involve a conflict of interest; nor did any of them perform, on their own behalf or on behalf of another, any transaction of a business nature falling within the Company's own or its subsidiaries' or affiliates' object and scope; nor did they act as a partner with unlimited liability in another company engaged in the same kind of business.

2.4 Voting Rights and Minority Rights

As is stipulated in Migros' articles of association, there are no special voting rights at the Company. All votes are of equal weight. Every shareholder at a general assembly meeting is entitled to cast as many votes as the number of shares that they hold. There are no shareholders with cross-shareholding interests. The articles of association provide for no special privileges and/or similar rights with respect to representation on the Board of Directors. Three of the nine members of the Board of Directors are independent members.

The Company avoids engaging in any and all manner of practices that might obstruct the exercise of shareholders' voting rights.

Those who are entitled to cast votes at general assembly meetings may exercise those rights personally and they may also designate a proxy, who may or may not be a shareholder themselves, to do so on their behalf. A specimen of the proxy statement for shareholders not personally attending a meeting is posted at the Company's headquarters, on its corporate website (www.migroskurumsal.com), and at the Central Registry Agency electronic general assembly portal and is also published in the Türkiye Ticaret Sicili Gazetesi along with the general assembly meeting summons.

Voting on agenda items at general assembly meetings is by an open show of hands by shareholders who are physically present; electronic voting is provided for shareholders who are attending meetings in an electronic environment. Once voting has been completed, the results of physically cast and electronically cast votes are consolidated in the electronic general assembly system.

2.5 Dividend Rights

There are no privileges regarding participation in the Company's profit. Profits are distributed within statutorily prescribed periods of time and as soon as possible after a general assembly meeting has taken place. The actual payment dates are determined by the general assembly.

Payment of dividends has always been an important matter for Migros, which always aimed to protect the interests of its shareholders. The utmost attention is given to the fine balance between the growth strategy and dividend payment policy. A copy of the "Dividend Distribution Policy" formulated by the Board of Directors is sent to the Public Disclosure Platform system along with material event disclosures pertaining to dividend payments. The same information is provided to shareholders at general assembly meetings and is published on the Company's corporate website. The Company's dividend policy is presented in the Corporate Governance Principles Compliance Report appendix of the annual report.

Taking the Company's long-term strategies, investments, financing plans, and profitability as well as compliance with CMB communiques and regulations into account, the Board of Directors may submit, for the approval of the general assembly, a proposal that a portion—such as may be determined by the board—of current-year profit be paid out as cash, or as bonus shares, or as a specific mix of these two or else that it be retained within the Company.

When a general assembly decides to distribute profits it may itself determine when the dividends are to be paid and similarly it may also authorize the Board of Directors to make such a determination. In all cases, the payment of dividends must begin no later than the end of the fiscal year in which was held the general assembly meeting at which the decision to pay them was taken. Matters related to dividend payments specified in the Capital Markets Law and in CMB communiques must also be complied with.

There are no shares in the Company that are entitled to special dividend rights; neither is there anyone who is entitled to a share of company profits who is not a shareholder.

This is the Company's policy for the next three years. Any changes to this policy will also be shared with the public separately.

At Migros Ticaret A.Ş.'s annual general assembly meeting on 25 September 2013, the Company announced that it showed a net current profit in the amount of TL 88,136,409 in its 2012 consolidated financial statements conforming to CMB regulations. Since the Company's statutory reserve was already at the legally prescribed level, it was not necessary to make an addition to it from this profit. Shareholders were informed of the Board of Directors' recommendation not to pay out a dividend for the year in order to further strengthen the Company's balance sheet and to ensure the existence of a more dependable cash flow in the years ahead and of its intention to use this profit to cover the Company's working capital needs and to finance new investments next year. This proposal was approved by the general assembly.

2.6 Transfer of Shares

The Company's articles of association contain no provisions restricting the transfer of its shares. According to the charter, a general assembly may decide to issue shares at a nominally determined value.

Transfers of the Company's shares are subject to the provisions of the Turkish Commercial Code and of capital market laws and regulations.

Subject to the satisfaction of specific conditions, the Company may acquire its own shares and accept them as collateral.

PART V: BOARD OF DIRECTORS

5.1 Structure and Composition of the Board of Directors

All of the members of the Migros Board of Directors possess the qualifications required of them in article 4.3 of CMB Corporate Governance Communique II-17.1. All of them are professionals distinguished by virtue of their exemplary business knowledge, experience, and background.

The Migros Board of Directors consists of nine members, all of whom are elected by shareholders at a general assembly meeting. A majority of the board's membership consists of non-executive board members. Among the non-executive board members are independent board members who have the ability to act with absolute impartiality in the conduct of their duties.

According to article 4.3.4 of CMB Corporate Governance Communique II-17.1, the number of independent board members must not be fewer than one-third of a board's total membership. When determining how many independent board members a board must have, fractions are rounded up to the nearest whole number but in no case may the number of independent board members be fewer than two. In compliance with this rule, three of the nine members of the Migros Board of Directors are independent members.

Under the articles of association, board members serve for three-year terms at most unless a shorter term of office is specified at the general assembly meeting at which they are elected. A board member whose term of office expires may be reelected. Shareholders assembled in a general assembly meeting may, for just cause and at any time that they deem such action to be necessary, dismiss any board member whether or not such an item is on the meeting agenda.

The duties of a nomination committee at Migros are performed by the Corporate Governance Committee. Inasmuch as the terms of office of the board's independent members did not end in 2013, the committee has not designated any prospective independent board members to replace them.

There are no binding rules governing board members undertaking duties outside the Company. Any duties that they do perform however are indicated in their CVs.

As a matter of principle there are no barriers to or limitations on women serving as members of the Board of Directors except that the number of female board members must not be fewer than 25% of the total membership. All members of the board—male and female—are considered and evaluated entirely on the basis of their professional and sectoral experience and their academic qualifications.

5.2 Operating Principles of the Board of Directors

As specified in corporate governance principles, the Board of Directors conducts its activities in line with the corporate governance principles of transparency, accountability, fairness, and responsibility. Taking the opinions of its internal committees into account, the Board of Directors devises internal control systems that incorporate risk management and information mechanisms and processes capable of minimizing the adverse impact of risks that might affect company stakeholders. The effectiveness of risk management and internal control systems is reviewed at least once a year. Information about the functionality and effectiveness of the internal control system is provided in the annual report.

As required by CMB Corporate Governance Communiqué II-17.1, the Board of Directors plays a proactive role in ensuring effective communication between the Company and its stakeholders and in addressing and resolving any disputes that may arise. To accomplish this, it cooperates closely with the Corporate Governance Committee and with the Investor Relations Department.

During 2013 the Migros Board of Directors passed sixteen resolutions on a variety of subjects. At least five members were present at every meeting at which these decisions were taken and the decisions were passed by a majority of those in attendance. Under the articles of association, invitations to board meetings may be sent out by the chairman (or his deputy) at least three days in advance of the meeting date by means of fax, letter, or email. These invitations indicate the meeting date, time, place, and agenda. Whenever the board is convened, it may agree upon a schedule for the regular conduct of meetings during the year.

A secretariat is charged with organizing and conducting meeting-related matters both before and after meetings are held. This secretariat is also responsible for the regular maintenance of meeting-related records, for making entries in the Board of Directors Book of Resolutions, and for making this register accessible to board members for their inspection. Any and all manner of views may be expressed during board meetings. If any dissenting votes are cast against a particular resolution, information about this is included in the minutes along with the justifications for such dissent. No dissenting opinions were entered into the minutes of any board meetings that took place during 2013. Any questions that may be raised by board members and the answers given to them are also entered into the minutes. Issues pertaining to board meetings and decision quora are governed by the Turkish Commercial Code.

The agendas for board meetings are determined in line with the suggestions and guidance of board members and senior executives. Even if no other item has been placed on a meeting's agenda, the Company's monthly financial statements and investment program are discussed.

Each member of the Migros Board of Directors is entitled to one vote. No members have been granted weighted voting or veto rights.

Members of the Migros Board of Directors are covered by insurance against the risk that the Company may suffer a loss on account of misjudgment and errors in the performance of their duties. Liability insurance policies in the amount of USD 20 million have been taken out on board members and senior executives.

Members of the Board of Directors are not allowed to vote in the issue of acquitting board members of their fiduciary responsibilities at general assembly meetings.

5.3 Number, Structure, and Independence of Committees Established within the Board of Directors

An audit committee, a corporate governance committee and an early detection of risk committee have been set up both in compliance with the requirements of CMB Corporate Governance Communiqué II-17.1 and in order to help the Board of Directors better fulfill its duties and responsibilities. Owing to the structure of the board, neither a nominating committee nor a remuneration committee has been set up: the functions of such committees are performed by the Corporate Governance Committee. These committees' areas of responsibility, their working principles, and their memberships are determined and publicly disclosed by the Board of Directors.

Under CMB Corporate Governance Communiqué II-17.1, all audit committee members and the heads of other committees must be selected from among a board's independent members. Care is taken to avoid having any single board member serving on more than one committee. However because the heads of the three committees must be independent board members and because all of the members of an audit committee must also be independent board members, the members of the Migros Audit Committee necessarily serve on more than one committee. No executive board member or general manager may serve on these committees.

The activities of the board's Audit Committee, Corporate Governance Committee, and Early Detection of Risk Committee for 2013 have been reviewed and assessed by the board. It was ascertained that in the conduct of their operations these committees had been mindful of the requirements of laws and regulations and that their activities had a beneficial impact on the Company's practices.

Corporate Governance Principles Compliance Report

a. Audit Committee

At a meeting of the Board of Directors held on 9 October 2012, it was decided that the Audit Committee should consist of two independent board members and that Hakkı Hasan Yılmaz and Tayfun Bayazıt were elected to fill these seats. In compliance with CMB regulations, Tayfun Bayazıt was chosen to serve as committee chairman.

Besides auditing the Company's accounting system and its publicly disclosed financial statements, the Audit Committee also oversees the operation and effectiveness of independent auditing and of the Company's internal control and internal audit systems. As required by Corporate Governance Principles, the selection of independent auditors, the preparation of independent auditing contracts and the initiation of independent auditing processes, and every stage of the activities of the independent auditors are subject to the oversight of the Audit Committee.

The Audit Committee determines methods and criteria that are to be applicable when examining and finalizing any complaints the Company receives about its accounting and internal control system or its independent auditing and when company personnel are given access to confidential reports about in-house accounting and independent auditing matters.

Prior to the public disclosure of annual and interim financial statements and having consulted and obtained the opinions of the Company officers concerned and of the independent auditors, the Audit Committee provides the Board of Directors with a written declaration concerning its own assessment of the statements' compatibility with respect to the Company's approved accounting principles and of their truthfulness and accuracy.

The Audit Committee convenes at least four times a year. The results of these meetings are set down in minutes that are submitted to the Board of Directors along with any decisions that are taken. Information about the Audit Committee's operations and meeting results is included in the Company's annual report.

The Audit Committee immediately notifies the Board of Directors in writing of any findings it makes concerning its duties and areas of responsibility and of its assessments and recommendations concerning such matters.

b. Corporate Governance Committee

The Migros Board of Directors has set up a corporate governance committee to oversee corporate governance practices at the Company and to coordinate the activities of the Investor Relations Department. At its meeting on 9 October 2012, the board decided to elect Hakkı Hasan Yılmaz, Nicholas Stathopoulos, and Affan Nomak as the members of the Corporate Governance Committee. In compliance with CMB regulations, the board also decided to appoint Hakkı Hasan Yılmaz to head the committee.

It was decided that the Corporate Governance Committee should also fulfill the duties of both a nominating committee and a remuneration committee as is allowed by CMB Corporate Governance Communique II-17.1. Accordingly and in the fulfillment of its duties as a nominating committee, the Corporate Governance Committee is responsible for creating a transparent system capable of identifying, vetting, and training suitable candidates to fill seats on the Board of Directors and to undertake management positions that have administrative responsibilities and to develop policies and strategies for dealing with such issues. The Corporate Governance Committee also makes regular assessments of the structure and efficiency of the Board of Directors and submits to the board its recommendations for possible changes in such matters.

In the fulfillment of its duties as a remuneration committee, the Corporate Governance Committee determines and oversees principles, criteria, and practices which are to be used in the remuneration of members of the Board of Directors and of managers with administrative responsibilities and which take the Company's long-term goals into account. The committee submits to the Board of Directors its recommendations concerning the remuneration that is to be paid to members of the Board of Directors and to managers with administrative responsibilities subject to the degree to which the recipients have satisfied remuneration-related criteria.

As defined by the Board of Directors in accordance with the same communique and other pertinent laws, regulations, and administrative provisions, the principal activities of this committee consist of determining whether or not corporate governance principles are being complied with and, if they are not being complied with, of identifying the reasons why and also any conflicts of interest arising from less than full compliance; of making recommendations to the Board of Directors to improve corporate governance practices; and of overseeing the activities of the Investor Relations Department. The goal of these efforts is to continuously improve the Company's corporate governance practices. The committee consists of three members and meets four times a year.

c. Early Detection of Risk Committee

At a meeting of the Board of Directors held on 9 October 2012, it was decided to elect Tayfun Bayazıt, Jacob Cornelio Adriano de Jonge, Stefano Ferraresi, and Erkin Yılmaz to seats on an early detection of risk committee which had been set up in compliance with the requirements of Turkish commercial law, capital market laws and regulations, and corporate governance principles. As also required by Capital Markets Board regulations, Jacob Cornelio Adriano de Jonge was designated as the committee's head.

As defined by the Board of Directors in accordance with the Turkish Commercial Code and capital market laws and regulations, the activities of the Early Detection of Risk Committee consist of identifying, at an early stage, risks that might endanger the Company's existence, well-being, and continuity; of taking measures needed to deal with such risks; and of managing risk. The Early Detection of Risk Committee performs a review of risk management systems at least once a year. The committee convenes six times a year.

5.4 Risk Management and Internal Control Mechanisms

The purpose of the Migros internal control system is to independently examine and provide company management with information about the functional, operational, and financial performance of processes and/or units so that any risks that are identified or foreseen may be managed. This system ensures that essential control mechanisms are installed and operate methodically.

In the conduct and performance of its financial and operational reviews, the Internal Audit Department adheres to the following principles.

- Effective and efficient utilization of the resources of the Company,
- Effectiveness of the internal control mechanisms on operations and activities,
- Reliability of financial statements,
- Confirmation of Company assets
- Efficiency and effectiveness of business operations,
- Compliance of employees with the quality management documentation and administrative instructions approved by the management,

The fundamental duties of the Internal Audit Department consist, among other things, of investigating/examining activities and transactions which previously had been determined and reported as having elements of risk in order to ascertain the degree to which such risks have been eliminated or brought under control in line with management-approved recommendations; performing follow-up reviews in situations where more detailed investigations and examinations are necessary.

Any irregularities that may be discovered during the course of review activities are investigated in detail with the aim of allowing measures to be taken as necessary while recommendations are also made concerning what action should be taken to deal with any losses which the Company is ascertained to have suffered. In all of these efforts, altering processes in such a way as to prevent recurrences of similar incidents is an issue of fundamental concern.

In line with risk analyses and the year's internal control plan, in 2013 the Internal Audit Department conducted financial and operational reviews of various departments and processes. Assessments and recommendations based on review results are submitted to company senior management along with the reports in which matters where improvements may be made in keeping with the philosophy of continuous development are also pointed out. Besides financial and operational reviews, the Internal Audit Department also conducts follow-up reviews on issues about which senior management was previously informed and it was agreed that measures needed to be taken.

An Early Detection of Risk Committee has been set up by the Board of Directors in compliance with the requirements of the Turkish Commercial Code, capital market laws and regulations, and CMB corporate governance communiques. Under a Board of Directors resolution dated 9 October 2012, Tayfun Bayazıt (independent board member), Jacob Cornelio Adriano de Jonge (independent board member), Stefano Ferraresi (board member), and Erkin Yılmaz (assistant general manager for financial affairs) were made members of this committee, which is chaired by Jacob Cornelio Adriano de Jonge in compliance with CMB regulations.

e) Relations with Customers and Suppliers

Getting to know its customers and markets by monitoring and acting proactively on them and pioneering change are among the crucial factors behind the innovative business style of Migros. For this reason, a number of "firsts" such as consumer rights took hold in the retail industry only after they were introduced by Migros as early as in the 1960s and 1970s. By introducing the Migros Club system for the first time in Turkey, in 1998, Migros had an opportunity to become better acquainted with its customers and provide them with differentiated service. And through this system, the Company gained the opportunity to approach its customers not only collectively but also individually by conducting customer data analyses. Migros aims to fulfill the expectations of its customers as satisfactorily as possible through the stores it operates in different formats.

In the retail industry where any product seen in any store can be imitated quickly, Migros' experience and deep-rooted innovation embedded in its corporate culture, as well as investments in supporting technology, together create a competitive advantage that cannot be easily replicated.

In the 1990s, Migros became the first retail company to introduce the barcode system and electronic cash registers which reduced waiting times at the checkout counters and decreased the Company's operating costs dramatically. Thanks to the B2B system which has been set up jointly with suppliers, all the parties involved benefit from savings in both logistics and costs. This system benefits all the stakeholders, and especially the Company's customers.

Migros has conducted a Customer Satisfaction Survey regularly since 1994. In 2013 survey, 4,000 of our customers who shop at our stores were asked about their opinion. The analyses undertaken on the survey results help us to have an idea about the current and future expectations of our customers. Occasional surveys conducted at kiosks inside the stores on specific matters provide the Company with the chance to hear the customers and their expectations.

Customer Relationship Management (CRM) analysis of Migros Club data and the mystery shopper surveys which are aimed at improving the service levels are quality-based performance tools specific to Migros.

Some of the other activities undertaken to achieve customer satisfaction include:

- Migros was awarded ISO 9001-2000 Quality Management System certification in August 2005
- Migros was awarded TS EN ISO 22000 Food Safety Management System certification by the Turkish Standards Institution (TSI) in December 2006. This certification covers retail, wholesale and online sales services as well as design and provision of organizational and logistic support services. In addition, Tansaş and Macrocenter stores were brought within the scope of TS EN ISO 9001-2000 certification which were awarded to the Company previously.
- Migros selects each of its suppliers after conducting appropriate due diligence. Suppliers are audited at regular intervals by reputable independent organizations and products are subjected to periodic quality audits. Private label products are also included in the same quality control process.
- In November 2013, the perspective of the Company's integrated quality management system was expanded with the inclusion of ISO 10002 Customer Satisfaction Management System certification.
- Since the day it was founded, Migros has striven to surpass its customers' expectations and to respond immediately to their requests. ISO 10002 certification is evidence of the Company's commitment to the principle of customer satisfaction. Besides enhancing its ability to overcome any customer disappointments, the system also makes improvements in service quality possible based on internal and external customer feedback.
- One of the social responsibility projects that Migros undertakes in the area of health and wellbeing is based on good agricultural practices (GAP), a collection of principles whose aim is to make agricultural production economically and socially viable and sustainable and to safeguard human, animal, and environmental health. Migros has been taking part in the Food, Agriculture and Livestock Ministry's "Good Farming = Good Future" GAP project since 14 September 2009.
- On 17 November 2009, Migros became the first retailer in Turkey to be awarded GAP group certification. The Company has continued to abide by GAP principles and its certification has been renewed every year since then.

Corporate Governance Principles Compliance Report

- Having made internationally recognized food safety standards the touchstone of its practices and operations, Migros has adopted the mission of supplying wholesome products under safe conditions in order to guarantee the unreserved confidence of its customers. In line with this goal, food products are carefully and constantly monitored and controlled from initial procurement until they reach the consumer.

Under Migros' Supplier Performance System, the production premises of all food suppliers are systematically inspected and monitored through food safety management systems. Products are randomly sampled and subjected to quality control analyses at regular intervals.
- Every new product undergoes preliminary quality control before it is put on sale at the Company's stores.
- Before they enter the Company's warehouses, goods received from suppliers are subjected to detailed organoleptic, chemical, and physical analysis based on 81 quality control parameters defined for each product by quality control experts consisting of veterinarians, food engineers, and agricultural engineers on duty at Migros distribution centers. Goods that do not meet these stringent quality standards are rejected.
- Cold chain assurance, one of the most essential criteria in achieving food safety, is constantly monitored online at every stage from distribution center and storage, during shipment, and until it reaches the final consumer.
- Every food product that is put on Migros' shelves is randomly sampled and subjected to quality control analyses at regular intervals by accredited independent laboratories to ensure compliance with the Turkish Food Codex and with applicable laws, regulations, and administrative provisions.
- Non-food products such as toys, stationery, textiles etc that Migros imports directly itself are subjected to strict controls. Prior to their importation, the Company has these goods analyzed at accredited independent laboratories to ensure that they are safe and contain no harmful substances such as phthalate plasticizers or azo compounds.
- Migros house-brand food and non-food items are subjected to even stricter controls. Such goods are not put on sale until and unless their places of production, labeling, and other applicable parameters have been checked and their compliance with laws and regulations has been established. Even after they appear on the shelves, Migros reviews product safety by means of analyses performed at regular intervals.
- Products in stores and warehouses and on shelves are regularly checked by a team of store quality specialists consisting of veterinarians, food engineers, and agricultural engineers. During such checks, attention is given not just to cold chain continuity, labelling, and expiration dates but also to compliance with food safety system requirements.
- Personnel employed at all the stores attend training programs on hygiene in order to ensure food safety.
- The Company's stores are subjected to unannounced inspections performed by accredited independent agencies during which the stores' sections and storage areas are checked for compliance on twenty separate categories of quality and food safety issues such as cleanliness, personnel hygiene, cold chain maintenance etc so as to ensure the safety of every product sold to customers.
- In the promotional program of the Company we call "Aksiyon", products are offered for sale at discount prices for a period of 15 days
- All customer suggestions received at the stores or the Call Center are evaluated and the results are communicated to customers as soon as possible. Customers can forward their complaints quickly and easily to company store managers via a toll-free customer line and by e-mail which can be sent to managers at all levels.
- In keeping with its objective of exceeding customer expectations and making life easier through innovations, Migros introduced the first self-checkout solution "Jet kasa" to its customers in Turkey. "Jet kasa" eliminates the need to wait in line and allows customers to check-out by themselves in three easy steps. As the number of customers using 'Jet kasa' increases by the day, so does the number of stores featuring this facility. Efforts to ensure full customer satisfaction are presented in the relevant section of the Annual Report.
